

# Focus Areas for Land Use Alternatives

## Definitions of the Categories:

### City Change Areas

Areas where changes in planned land uses have been recently adopted or are pending.

### Study Areas

Smart growth areas where future change is likely to occur. Detailed land use alternatives and sustainability analysis will occur.

### Consideration Areas

Areas also likely to experience change. More limited alternatives analysis will occur.

### Property Owner-Initiated Areas

Areas where property owners have requested changes to the allowable land uses on their property.
